ABOUT COLLEGE

Shripatrao Chougule Arts and Science College was established in 1998 to provide higher education to the poor, needy students, especially girls in this area. It has turned up like a blessing to those students who wish to take higher education but cannot afford to pursue in the city like Kolhapur on account of financial and social constraints. For last 25 years, the college has been endeavoring to bring about all round development of the students by organising various activities.

ABOUT THIS CONFERENCE

We all must have come across the term 'Women Empowerment'. It refers to actions performed to raise women's status in society and reduce all gender disparities. In a broader sense, it relates to women's economic and social empowerment by implementing various policy measures. Ensuring every girl kid attends school and making their education mandatory is a significant step towards empowering women.

An educated woman can meet both her demands and those of her family. They enjoy greater recognition and wield a more influential presence in the political and social system. The first step in empowering women is to make them financially independent and protect their rights and interests.

Shripatrao Chougule Arts and Science College

The established educational institution under the name of Dnyanganga Shikshan Prasarak Mandal, Malwadi in 1995. The main objective of the establishment of this college was to cater to the needs of students coming from the village specially girls. The college is situated in rural and hilly area which is 27 kms away from the city of Kolhapur. The place is educationally and economically undeveloped. The people of the area are mostly dependent on farming as a result higher education was not possible for girls. Bearing this in mind we decided to establish senior college in this vicinity. In the beginning the institution had to find its way through hardship and struggle. But now the college has been known as renowned educational centre with full fledged building where all the facilities are accessible to majoring of students.

In the post accreditation period the college has adopted increasingly student centered approach to bring out the unexplored talent of the youth. The Institution believes light of knowledge is the light of life. Our institution is the centre of many educational activities in the area.

Our institution has started Junior College in 2001. In the year 2003-04 the Madhyamik Vidyalaya was started. Taking into view the importance of training college D.Ed. College has been started in the year 2008-09. At the same time considering the importance of English as Global Language, English Medium School is successfully run by the institution since 2000.

> About the Workshop:

Research is the cornerstone of any academic institution, and quality research depends on the use of advanced research methodology. The thematic focus of this National Workshop is to equip participants with advanced research methodology skills through interdisciplinary perspectives.

The workshop will cover topics such as research design, data collection and analysis, research ethics, and publication ethics. Participants will learn how to apply these skills to their research and to teach research methodology to their students. This workshop will also encourage interdisciplinary thinking, which will enable participants to explore research methods outside their discipline and develop innovative approaches to research problems.
